

Gain A Real-Time Overview of Your Supply Chain Exposure Caused By COVID-19

Integrated with SAP Ariba and featuring a live WHO COVID-19 case data feed, our Health Risk Impact Overview application provides a comprehensive overview of your supply chain exposure against each country

Reasons to Use the Health Risk Impact Overview Application

Real-Time Global Overview

Illustrates exposure against the risk level of any country

Open Purchase Order Exposure

Data can be drilled down to individual purchase order level

Upload Your Own Data

Data can also be uploaded in a CSV format

Fully Configurable

Add in additional fields from your SAP environment

At-a-Glance Dashboards

Fully adaptable to meet your own specific requirements

Engage with Suppliers

Initiate follow up assessments of high-risk suppliers
